

Using the Future

Noora Vähäkari

On behalf of

Prof Sirkka Heinonen

Finland Futures Research Centre (FFRC), University of Turku

Futures Studies and future of sustainable energy system

DEEM Training 10 September 2019

Institute of Technology of Cambodia, Phnom Penh

Aim of the session:

1. Use the Future with Futures Wheel
2. Discuss different Transformative Energy Scenarios for Cambodia

What is Project Cycle Management?

Project cycle management (PCM) is the process of planning, organizing, coordinating, and controlling of a project effectively and efficiently throughout its phases, from planning to implementation to completion and review achievement of pre-defined objectives to satisfy project stakeholders, by producing the right deliverable at the right time, cost and quality

modified from Wikipedia

PESTEC TOOL

A photograph of a pond with several large, round, green lily pads floating on the water. A single, vibrant pink lotus flower is in full bloom, rising from the water in the lower right quadrant. The background is a soft, light-colored sky.
